€6M invested by a high-value client first acquired via paid campaigns

+186% website traffic YoY following the redesign

+94% organic search traffic YoY driven by the SEO strategy

~10% of site traffic from AI assistants through GEO/AEO

~88% reduction in CPA by acquiring high-value leads

Inaugural Digital Marketing Lead at PrediSurge, with 3+ years of professional experience, specialised in turning websites into lead-generation engines. I own every layer of the digital marketing tech stack, from website, CRO, SEO/GEO and paid media to marketing automation, CRM and analytics, and build scalable digital infrastructure across the customer journey to drive growth.

PROFESSIONAL EXPERIENCE

Marketing & Digital Communication Leader, PrediSurge — 02/2025 – Present

MedTech scale-up | Saint-Étienne, France

01 | WEBSITE REVAMP PROJECT

Sept 2025 — Revamp kick-off
WordPress → Webflow — CMS migration
Dec 2025 — Launch in 4 months
+186% — traffic YoY, Jan–Sep 2026

- Led the **end-to-end website revamp** from brief to launch, owning a **~€50k** budget: selected and managed the external web agency, negotiated pricing aligned with budget ambitions, and delivered in a **record 4 months**
- Designed a new user journey built on user-centric, **marketing-driven CRO** principles, covering navigation, solution pages and product pages, to drive higher website conversion
- Led the CMS migration from **WordPress to Webflow**, raising technical performance (load times, Core Web Vitals, technical SEO) and enabling multi-language and multi-region scalability and accessibility, with **AI-automated localisation** fast-tracking the roll-out of regional sites
- Steered the agency's full execution across wireframing, development and brand guidelines, upholding the highest quality standards while prioritising key sprint goals and deadlines
- Launched the new website with strict hosting security and **GDPR privacy policies**, managing legacy-URL redirects and sitemap updates to protect search-engine authority
- Drive ongoing **conversion-rate optimisation** through A/B testing, Hotjar heatmaps, landing-page creation and HubSpot form integration
- Combine hands-on front-end experience (HTML, CSS) with **AI-assisted development** (vibe coding) to ship new website features, such as the **interactive simulator**: predisurge.com/en#simulator

02 | ORGANIC VISIBILITY (SEO / GEO / AEO)

- Built the **SEO strategy** from the ground up, implementing technical and on-page SEO and connecting Google Search Console and Bing Webmaster Tools to manage indexing and crawl issues, growing organic search sessions by 94% YoY
- Designed and implemented a **GEO/AEO strategy**: technical GEO through JSON schema so LLMs understand the site's structure and content, and **AEO-first FAQs** across the complete customer journey to earn LLM citations and organic traffic
- Achieved **LLM citations** in under a month. AI assistants now drive ~10% of site traffic and ~5% of leads, building strong top-of-funnel awareness
- Secured citations across almost every generative and answer engine, with the largest citation share on Gemini, ChatGPT and Perplexity

03 | PAID MEDIA

Google Ads | Meta Ads | LinkedIn Ads

- Fully owned end-to-end media buying across **Google, Meta and LinkedIn Ads**, managing budgets of **€3,000+ per month** scaled by season, from content creation to performance measurement
- Positioned PrediSurge's AI vascular-care technology with **senior decision-makers** (business-unit heads, CEOs) at hospitals and high-value B2B accounts across **Europe, the UK and Asia**
- Designed Google, Meta and LinkedIn campaigns across multiple formats and objectives (event awareness, sales growth), optimising content, timing and targeting in real time, which **reduced CPC by 70%**
- Installed Meta Pixel, Google Tag Manager, Google Ads tag and LinkedIn Insight Tag to **track conversion events** and attribute traffic to the right source through Google Analytics
- **Reduced CPA by ~88%** by acquiring high-value leads that converted into **multi-year contracts**, increasing customer lifetime value
- **Biggest achievement:** one of our earliest B2B campaigns on LinkedIn brought in a high-value lead from South Korea that became a client and went on to invest **€6M** in the company

EDUCATION

Audencia Business School – Grande École

MSc in Management-Engineering (Marketing, Management Consulting)
02/2022 – 05/2025 | Nantes, France

PrediSurge (continued) — 02/2025 – Present

04 | CRM & AUTOMATION

- Led end-to-end CRM selection and implementation, starting with **cross-functional workshops** across Marketing, Sales and Customer Service to define requirements and a PrediSurge-specific use case, and running the vendor RFP process
- Benchmarked vendors against the **Gartner Magic Quadrant** and Critical Capabilities, ran vendor demos and selected **HubSpot**, then managed the key-account relationship and negotiated a **50% discount** over 2 years instead of 1 via its start-up programme
- Set up HubSpot operationally: migrated contacts, deals and quotes from Monday and Mailchimp, and **integrated HubSpot forms** into the Webflow site so every request is captured in the CRM
- Built **marketing and sales automations** that route leads to the right sales rep by product type with instant team notifications, and **prospecting agents** in HubSpot to strengthen the outbound sales strategy
- Deployed HubSpot tracking code and a **GDPR-compliant cookie setup** to track each visitor's digital footprint from first visit (campaign, ad set and ad) through to demo request, including every page viewed once a contact submits a form

05 | CONTENT & COMMUNICATION STRATEGY

- Designed and executed inbound and outbound digital strategies across multiple channels, optimising budget allocation to maximise ROI and consistently generate **qualified leads**
- Built a global editorial calendar and diverse content formats (eBooks, guides, blogs), with structured creation processes across medical, regulatory and marketing teams to educate audiences on product innovation
- Led community management on LinkedIn with consistent messaging around launches, events and promotions, gaining **1,582 followers** with **96.8k reach** and **201.2k impressions** in 16 months

06 | EXECUTIVE COLLABORATION & STRATEGIC ALIGNMENT

- Partnered directly with the **CEO and Chief Commercial Officer** to align the digital marketing roadmap with overall commercial objectives
- Served as the central strategic bridge between the C-suite, Head of Sales and Head of Product, ensuring unified go-to-market messaging and rapid lead-to-pipeline response
- Presented digital performance, attribution data and **ROI** directly to executive leadership to guide resource allocation and budget planning

Web Marketing Assistant, Bandai Namco Europe (BNEU) — 10/2023 – 03/2024

Lyon, France | Ref: Tatjana Gouin, Web Marketing Specialist (tgouin@bandainamco.eu)

- Content strategy: co-built event-based content strategies and SEO roadmaps (blogs, guides) for a portfolio of products, aligned with go-to-market strategies (Attract, Engage, Delight)
- Content creation: coordinated the content creation process with cross-country creative teams to ensure timely delivery of translations and creative assets
- Content management: ensured accurate, relevant daily website updates (news, patch notes, guides) on Drupal, backed by an AWS CDN
- Content distribution: orchestrated distribution across digital channels (CRM, digital content, social media, PR, e-commerce) to build cross-channel synergy
- Website design: designed and re-optimised landing pages in HTML and CSS to maximise campaign impact, user experience and conversion rate
- Animation & loyalty: integrated online contests (CBT, CNT, giveaways) by building loyalty-programme pages with a lead-generation specialist
- Reporting: monitored content performance with Google Looker Studio and Google Analytics, and proposed optimisations to grow organic acquisition

VOLUNTEERING EXPERIENCE

Digital Marketing & SEO Assistant, Eglise Nantes Nord — 06/2022 – 06/2023

Nantes, France | Ref: Andrew Lytle (andrew.lytle@orange.fr)

- Website objectives: defined site objectives covering functional requirements, usability and localisation, and selected a CMS to support future scalability
- Customer research: built customer personas and mapped the customer journey to design an effective site architecture
- Web design: designed the website on Weebly, with internal linking for navigation and crawlability and brand assets for a cohesive experience
- SEO: ran keyword research with Google Keyword Planner to develop SEO-optimised content and grow organic traffic
- Website launch: managed URL redirects from the old site to ensure proper indexing through Google Search Console
